

## Silhouette Curio™ electronic cutting machine

This machine is more than a cutting tool. It can cut, emboss, sketch, stipple, and etch—it's like a Swiss Army knife for your craft room. Unlock powerful new creative capabilities like print and emboss, score and emboss, and deep cut.

The Curio boasts a rich mix of innovative features, including a dual carriage, an adjustable base, and a raised clearance bar to open the door to new project materials like wood, foils, thicker leathers, craft foam, and even metals.
